Platinum King LED ECO 720W (driver integrated)

The Platinum king led pro 720w eco driver integrated system is a high quality horticultural LED panel that can be power regulated to balance the quality of light with sufficient quantity to provide lighting from a single source for the entire growing and flowering cycle. The Platinum king led pro 720w eco driver integrated system, is a linear multi-light bar fixture that produces 1872 µmol/s.

It creates an even spread of light over a short distance from the crop, enabling single source grow lighting for multi-layer grow systems, for low rooms, greenhouses, etc.

Power (W)	**720**
PPFD	**1872 µmol/s**
Efficiency	**2.6 µmol/j**
LED bars	**6**
Power	**Adjustable power**
Input voltage	**100-277V**
connection	**RJ 14 for Master Controller**
Chip	**Sanan Chip**
