

MONSTER SOIL POT

LIVING SOIL HOMEGROW POT

- RICH IN BENEFICIAL MICROBES.
- READY-TO-USE - JUST ADD WATER.
- NO EXTRA FERTILIZERS REQUIRED.
- FULL CYCLE NUTRITION - REUSABLE.

INSTRUCTIONS

APPLICATION: Ready-to-use growing substrate for ornamental and crop plants. Plant the young plant or pre-germinated seedling directly into the soil. Keep evenly moist with chlorine-free water, avoiding waterlogging. Choose a bright, sunny location or illuminate with a grow light. No additional fertilization required.

- **PREPARATION:** Remove the lid – it can be used as a saucer.
- **PLANTING:** Plant the young plant or pre-germinated seedling directly into the soil. For sensitive young plants, prepare a small planting hole with approximately 0.3 L of Light Mix as a buffer zone.
- **IRRIGATION:** Use rainwater or 24-hour stagnant tap water (chlorine-free). Keep evenly moist, avoiding waterlogging. No pH adjustment required.
- **LOCATION & LIGHT:** Place in a bright, sunny location or place under a grow light. Consistent light supports vigorous growth.
- **NUTRIENT SUPPLY:** Substrate is pre-fertilized – no additional fertilizer is required.

READY. SET. GROW.

Pre-filled with premium Monster Living Soil, this pot is your **All-in-one growing solution**. No extra fertilizers, no mixing – just add water and plant. The living microbiome feeds your plants continuously for healthy, vigorous growth and unbeatable taste.

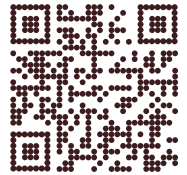

ONE POT. ONE PLANT. ONE MONSTER RESULT.
