

COCO-KAYA

ORGANIC FERTILIZED COCONUT SUBSTRATE

WHAT IS COCO-KAYA?

COCO-KAYA, the perfect choice for pure growth and joy! This ready-to-use, lightly fertilized coconut substrate isn't just airy; it tucks in all that moisture for your plants to flourish. Whether indoors or outdoors, this optimized mix of blended cocos, with peat, perlite and fertilizers, is your go-to for potting and growing tasty flowers, veggies and herbs. Let your plants feel the organic and Rasta-inspired vibes of **COCO-KAYA** – the ultimate start for vibrant growth!

HOW TO USE IT

Upon opening the bag, pour the substrate needed depending on your pots. This substrate is ready to use, but you can add as much fertilizers or amendments as desired. You can use **COCO-KAYA** from the vegetative phase up until the end of the crop cycle as well as during cloning and seedling processes. It is important to maintain a levelled NPK input. Hydrate the substrate properly, using a balanced ratio of water in order to maintain a good humidity bulb.
